

How to participate in this programme?

- Each **volunteering** person or institution need to **spare 2 hours per month** for this programme.
- Approach a School / College / Institution / Office. This is a monthly repeatable activity.
- Execute the following activity in every section. Share the video and printed document.
- The current bills will be brought from homes. Section in-charge / class leader / teacher will enter the bill amount and the number of units in a register for all the participants / students.
- Every month, the percentage difference units of current consumed is calculated. The student / staff who saved more energy will be recognised with a badge – **Energy Smart Student of the Month (ESSOM)**, Energy Smart Staff of the Month (ESSOM) and the best section among all sections is given Energy Smart Section of the Month (ESSOM).
- Every month this badge is given to the best candidate as a rolling recognition.

What are the benefits?

We are able to save minimum 3000 to 15000 units of power per month per institution. Out of more participation, we can achieve phenomenal power savings which can get us freedom from power cuts, save farmers from suicides, uninterrupted working opportunity for industries and safe power availability to people in hospitals.

How to report the progress?

Every month, the volunteer need to ensure that the power bills data is collected in every section of the institution. The (%) difference amount of units of power consumed from previous month need to be calculated and recorded in a register or an excel sheet. The data need to be mailed with the list of monthly power saving champions, so that we can display in the website as well as school notice boards.

Recognition:

A badge needs to be given to every Energy Smart Students / Staff / Section of the month (ESSOM). We recommend schools to nominate consistently power saving champion names for special recognition certificates from i Go Green Foundation / Rotary. Institutions can also give incentives / grace marks in EVS subject to motivate more participation.

All the participating schools will also receive a certificate from i Go Green Foundation / Rotary.

Who Can Participate?

Any school or College or Corporate office or government office can participate in this programme from **anywhere** in INDIA.
